# Contents

<b>Introduction to the Series</b> .....	V
<b>Preface</b> .....	VII
<b>1 Introduction to Plastic Blow Molding</b> .....	1
1.1 Scope of this Book .....	1
1.2 Background of Plastics .....	1
1.2.1 History of Plastics .....	1
1.2.2 Polymers .....	2
1.2.3 Fundamental Properties .....	2
1.3 Plastic Polymer Types .....	3
1.3.1 Thermosets .....	3
1.3.2 Thermoplastics .....	3
1.4 References .....	4
<b>2 Basic Process</b> .....	5
2.1 The Principles of Blow Molding .....	5
2.2 Parison Formation .....	7
2.3 Blow Molding Development .....	8
<b>3 Overview of Polymer Materials</b> .....	11
3.1 Polymer Principles .....	11
3.2 Types of Polymers .....	11
3.3 Types of Polymerization .....	13
3.4 Resin Considerations for Blow Molding .....	15
3.4.1 Chemical End-Use Requirement .....	15
3.4.2 Physical and Processing Requirements .....	15
<b>4 Extrusion Blow Molding</b> .....	21
4.1 Extrusion .....	21
4.1.1 Mandrel and Dies .....	24
4.1.2 Wall Thickness .....	24
4.1.3 Blow-Up Ratio .....	26
4.1.4 Validation .....	26
4.1.5 Wall Thickness and Melt Temperature .....	26
4.2 Continuous Extrusion .....	27
4.2.1 Overview .....	27
4.2.2 Rising (Vertical Movement) Mold .....	28

4.2.3	Sliding (Horizontal Movement) Mold .....	28
4.2.4	Molds on a Rotary Wheel .....	29
4.3	Intermittent Method .....	30
<b>5</b>	<b>Injection Blow Molding</b> .....	<b>33</b>
5.1	Injection Molding Method .....	33
5.2	Stretch Blow Molding .....	36
<b>6</b>	<b>Extrusion Blow Molding Technique</b> .....	<b>39</b>
6.1	The Steps of the Blowing Technique .....	39
6.2	The Parison or Pre-Form .....	40
6.3	Essential Blow Molding Factors .....	41
6.4	Choice of the Most Suitable Resin .....	42
<b>7</b>	<b>Guidelines for Selecting Industrial Blow Molding Machines</b> .....	<b>43</b>
7.1	The Extruder .....	44
7.2	The Accumulator Head .....	45
7.3	The Press .....	46
7.4	Summary .....	47
<b>8</b>	<b>Extrusion Blow Molding Advanced Systems</b> .....	<b>53</b>
8.1	Coextrusion Blow Molding .....	53
8.1.1	Common Materials and Applications for Coextrusion Blow Molding .....	54
8.1.2	Typical Structures .....	55
8.1.3	Continuous Multi-Layered Coextrusion .....	56
8.2	Three-Dimensional Blow Molding .....	57
8.2.1	Three-Dimensional Blow Molding Processes .....	58
8.2.1.1	Suction Blow Molding .....	58
8.2.1.2	Parison Manipulation .....	59
<b>9</b>	<b>Understanding Extrusion Blow Molds</b> .....	<b>61</b>
9.1	Main Characteristics of the Mold Halves .....	61
9.2	Mold Materials .....	63
9.3	Importance of Fast Mold Cooling .....	64
9.4	The Pinch-Off .....	66
9.5	High Quality Undamaged Mold Cavity Finish .....	67
9.6	Effects of Air and Moisture Trapped in the Mold .....	68
9.7	Injection of the Blowing Air .....	69
9.8	Ejection of the Piece from the Mold .....	70
<b>10</b>	<b>Understanding Injection Blow Molds</b> .....	<b>71</b>
10.1	Tooling .....	71

---

10.2	Parison Neck Ring .....	71
10.2.1	Parison (Pre-Form) Cavity .....	72
10.2.2	Blow Mold Neck Ring .....	73
10.2.3	Blow Mold Cavity.....	74
10.2.4	Bottom Plug .....	74
10.2.5	Core Rod Assembly .....	75
10.2.6	Injection Manifold Systems.....	76
10.2.7	Parison (Pre-Form) Design .....	77
<b>11</b>	<b>Finishing .....</b>	<b>79</b>
11.1	Part Molding Equipment and Processing.....	79
11.2	Planning for Finishing a Blow Molded Part.....	79
11.2.1	Product Design.....	79
11.2.2	Mold Engineering .....	79
11.2.3	Process Planning .....	80
11.3	Removing Domes and Other Sections .....	83
11.3.1	Rotating Saw Blades .....	83
11.4	Knife Cut .....	83
11.4.1	The Cutting Machine – Round Parts vs. Parts with Corners .....	84
11.4.2	Benefits of Using a Knife Cut .....	85
11.5	Other Methods .....	85
11.6	Deburring .....	85
11.6.1	Common Deburring Methods .....	86
11.6.2	Manual Flash Removal.....	86
11.6.3	Machine Flash Removal.....	86
11.7	Clamping Needs in Extrusion Blow Molding .....	87
11.7.1	Blow Clamp Force .....	87
11.7.2	Pinch Clamp Force.....	87
11.8	Effects on the Force Required to Deflash a Part.....	88
11.9	Finishing by Machining .....	89
11.9.1	Drilling .....	90
11.10	Fixtures .....	90
11.11	Computerized Numerical Control .....	90
11.12	Robotics.....	91
11.13	Decoration Equipment and Processing .....	92
11.13.1	Surface Treatment .....	92
11.13.2	Spray Painting.....	95
11.13.3	Hot Stamping .....	95
11.13.4	Pad Printing .....	97
11.13.5	Screen Printing.....	99
11.13.6	Labels and Decals .....	101
11.13.7	In-Mold Labeling .....	101

---

<b>12 Troubleshooting</b>	105
12.1 Detailed Failure Analysis	107
12.1.1 Rocker Bottoms and Oval Necks	139
12.1.2 Defects Within the Blown Wall	139
12.1.2.1 Bubbles	139
12.1.2.2 Cold Spots	140
12.1.2.3 Thinning	140
12.1.2.4 Tearing	140
12.1.2.5 Cutting	141
12.1.2.6 Indented Parting Lines	141
12.1.3 Poor Bottle Surface	141
12.1.4 Curtaining and Webbing	142
12.1.5 Blowouts	143
12.1.6 Parison Curl, Stringing, Hooking, Sag, and Length Consistency	144
12.1.6.1 Parison Curl	144
12.1.6.2 Parison Stringing	144
12.1.6.3 Parison Hooking	144
12.1.6.4 Parison Sag	145
12.1.6.5 Parison Length Inconsistency	145
12.1.7 Foreign Matter in the Melt	145
12.1.7.1 Look for Exterior Sources of Contamination First	146
12.1.7.2 Degraded Resin – Many Sources	146
12.1.7.3 Culprit – Man or Machine?	147
12.1.8 Die Lines or Streaking in the Parison	147
12.1.9 Shrinkage	148
12.1.10 Causes of Stress Cracking	148
12.1.10.1 Environmental Stress Cracking	148
12.1.10.2 Solvent Stress Cracking	149
12.1.10.3 Mechanical Stress Cracking	149
12.1.11 Heat – Too Much or Too Little and What to Do About It	150
12.1.11.1 Instrument Recalibration	151
12.1.12 Surging	152
12.1.13 Sharkskin	152
12.1.14 Screw Wear Affects Performance	155
12.1.14.1 Inspection Rollers	155
12.1.14.2 Diameters	155
12.1.14.3 Depths	156
12.1.14.4 Concentricity and Straightness	157
12.1.14.5 Hardness	157
12.1.14.6 Finish and Coating Thickness	158
12.1.14.7 Screw Manufacturing Tolerances	159

---

12.1.15 Barrel Inspection .....	159
12.1.15.1 Inside Diameters .....	159
12.1.15.2 Straightness and Concentricity .....	159
12.1.15.3 Barrel Hardness .....	160
12.1.15.4 Barrel Specifications .....	160
12.1.16 Detecting Container Leakage .....	161
<b>Appendix</b> .....	163
Plastics Acronyms .....	163
<b>Index</b> .....	173
