# Contents

<b>Foreword</b> .....	V
<b>Preface to the Fourth Edition</b> .....	VII
<b>1 Introduction</b> .....	1
1.1 The Economic Significance of Injection Molding .....	1
1.2 History of Injection Molding .....	4
<b>2 Materials for Injection Molding</b> .....	9
2.1 Processing Data for Thermoplastics .....	9
2.1.1 Temperatures .....	9
2.1.2 Pressures .....	15
2.1.3 Drying of Thermoplastics .....	17
2.1.4 Mixing and Coloring of Thermoplastics During Injection Molding .....	23
2.2 Processing Data for Thermosets .....	26
2.3 Processing Data for Elastomers (Rubber) .....	26
<b>3 General Design and Function</b> .....	29
3.1 Characterization of the Injection Molding Process .....	31
3.1.1 Functional Process Steps .....	31
3.1.2 Injection Molding Cycle .....	33
3.1.3 Significance of Pressure .....	34
3.2 Influence of Temperature on the Molding Process .....	44
3.2.1 Temperature of the Hydraulic Oil .....	44
3.2.2 Melt Temperature .....	44
3.2.3 Mold Temperature .....	45
3.3 Velocity, Speed .....	45
3.4 Physical Description of the Molding Process .....	47
3.5 Effect of Molding Technique on Properties .....	49
3.5.1 Dimensional Stability .....	49
3.5.2 Mechanical and Physical Properties .....	49
<b>4 Injection Unit</b> .....	61
4.1 Performance Parameters of the Injection Unit .....	63
4.1.1 Injection Pressure .....	63
4.1.2 Feeding Stroke .....	69
4.1.3 Injection Volume .....	73
4.1.4 Screw Speed/Circumferential Speed .....	77
4.1.5 Plasticating Capacity .....	78
4.1.6 Torque .....	81
4.2 Screw .....	82
4.2.1 Standard Screws for Thermoplastics .....	83
4.2.2 Special Screws for Thermoplastics .....	86

4.2.3	Special Plastication Units for Thermoplastics	87
4.2.4	Screws for Rigid PVC	94
4.2.5	Screws for Vented Barrels	94
4.2.6	Screws for Thermosets	97
4.2.7	Screws for Elastomers	98
4.2.8	Screws for Processing Silicones	100
4.2.9	Screw Tips	100
4.2.10	Non-Return Valve (Check Valve)	101
4.3	Barrel	109
4.4	Nozzle	110
4.4.1	Open Nozzles	111
4.4.2	Shut-Off Nozzles	113
4.4.3	Nozzles with Material Filters	118
4.4.4	Internally Heated Nozzles	121
4.4.5	Nozzles with Mixing Functions	122
4.5	Wear and Wear Protection	122
4.5.1	Causes of Wear	122
4.5.2	Wear Protection Measures	126
4.6	Screw Drive Systems	131
4.6.1	Translational Drive System for Screws	132
4.6.2	Rotatory Screw Drive System	137
4.7	Carriage Guide for the Injection Unit	139
4.8	Accessories for the Injection Unit	142
<b>5</b>	<b>The Clamping Unit</b>	<b>145</b>
5.1	Clamping Sequence During Opening and Closing	147
5.2	Clamping Force, Locking Force, Reaction Force	151
5.3	Designs of Clamping Units	155
5.3.1	Mechanical Clamping	156
5.3.2	Hydraulic Clamping Systems	157
5.3.3	Tie-Bar-Less Clamping Units	164
5.3.4	Special Clamping Units for Production of Compact Discs	167
5.4	Accessories for the Clamping Unit	169
5.4.1	Ejector Systems	170
5.4.2	Removal Equipment for Tie-Bars	171
5.4.3	Clamping Systems for Molds	172
5.4.4	Unscrewing Equipment for Cores Inside the Mold	172
5.4.5	Magnetic Mold Clamping	172
5.4.6	Standard Equipment for Clamping Units	173
<b>6</b>	<b>The Drive Unit</b>	<b>177</b>
6.1	Electrohydraulic Drives	178
6.1.1	Pump Drives	179
6.1.2	Speed-Controlled Drive Unit	188
6.1.3	Hydraulic Drive Systems Featuring an Accumulator	192
6.1.4	Elements of Hydromechanical Drives	195

6.2	Electromechanical Drives . . . . .	212
6.2.1	Mechanical Gears for Electromechanical Drives . . . . .	215
6.2.2	Elements of Electromechanical Drives . . . . .	219
<b>7</b>	<b>The Control System . . . . .</b>	<b>227</b>
7.1	Process Control Methods . . . . .	228
7.1.1	Open-Loop Control . . . . .	228
7.1.2	Closed-Loop Control . . . . .	230
7.2	Temperature Control . . . . .	231
7.2.1	Temperature Measurement . . . . .	231
7.2.2	Temperature Controls . . . . .	236
7.3	Pressure Control . . . . .	242
7.3.1	Pressure in Front of the Screw Tip . . . . .	242
7.3.2	Hydraulic Pressure . . . . .	244
7.3.3	Cavity Pressure During Injection Molding . . . . .	244
7.3.4	Force Measurement . . . . .	247
7.3.5	Displacement (Position) Measurement . . . . .	248
7.4	Control Unit . . . . .	250
7.4.1	Standard Control Unit . . . . .	250
7.4.2	Control Panel and Display . . . . .	251
7.4.3	Objectives of Process Control . . . . .	252
7.4.4	Components of the Control Unit . . . . .	253
7.4.5	Disturbances . . . . .	255
7.4.6	Methods of Process Control . . . . .	256
7.5	Electronic Data Processing in Injection Molding . . . . .	266
7.6	Computer-Controlled Automatic Injection Molding Installation . . . . .	268
<b>8</b>	<b>Efficiency and Energy Consumption . . . . .</b>	<b>273</b>
8.1	Hydromechanical Drives . . . . .	273
8.2	Electromechanical Drives . . . . .	279
8.3	Comparison of Hydromechanical and Electromechanical Injection Molding Machines . . . . .	280
<b>9</b>	<b>Injection Molding Machines for Special Processes (Special Machines) . . . . .</b>	<b>285</b>
9.1	Modifications of Standard Injection Molding Machines . . . . .	287
9.2	Plunger Injection Molding Machine . . . . .	288
9.2.1	Plunger Injection Molding Machines with Plunger Preplastication . . . . .	289
9.2.2	Plunger Injection Molding Machines with Screw Preplastication and Plunger Injection . . . . .	290
9.2.3	Screw Preplastication with Plunger Metering (Accumulator) and Plunger Injection . . . . .	291
9.3	Multi-Station Injection Molding Machines . . . . .	292
9.3.1	Multi-Station Machines with Horizontal Clamping Unit . . . . .	292
9.3.2	Tandem Injection Molding Machines . . . . .	293
9.3.3	Two-Platen Injection Molding Machines (Tandem Arrangement) with Opposed Injection Units . . . . .	295

9.4	Small Injection Molding Machines and Micro Injection Molding Machines . . . . .	296
9.4.1	Terminology of Micro Injection Molding Machines . . . . .	296
9.4.2	Mini and Micro Injection Molding Machine Designs . . . . .	298
9.5	Multi-Component Injection Molding Machines . . . . .	302
9.5.1	Machine Technologies . . . . .	302
9.5.2	Nozzle Technology . . . . .	306
9.5.3	Mold Technology . . . . .	306
9.5.4	Sandwich (Two-Component) Injection Molding Machines . . . . .	308
9.6	Injection Molding Machines for In-Mold Decoration (IMD) and In-Mold Lamination (IML) . . . . .	310
9.7	Gas- or Fluid-Assisted Injection Molding Machines . . . . .	315
9.7.1	Equipment for Gas-Assisted Injection Molding (GIT) . . . . .	315
9.7.2	Surface Gas Pressure Process . . . . .	315
9.7.3	Water-Assisted Injection Molding Technology (WIT) . . . . .	318
9.8	Injection Molding Machines with Compounding Functions . . . . .	319
9.9	Injection Molding Machines for Processing Polyester Molding Compounds . . . . .	320
9.10	Injection Molding Machines for Processing Elastomers . . . . .	322
9.10.1	Injection Molding Machines for Rubber Processing . . . . .	322
9.10.2	LSR Injection Molding Machines . . . . .	324
9.11	Low-Pressure Injection Molding . . . . .	326
9.11.1	Low-Pressure Injection Molding Machines for Recycled Thermoplastics . . . . .	326
9.11.2	Structural Foam Injection Molding Machines . . . . .	328
9.11.3	Machines for Producing Microcellular Foams . . . . .	330
9.12	High-Pressure Injection Molding Machines . . . . .	332
9.13	Push-Pull Injection Molding Machines . . . . .	334
9.14	Fusible-Core Technology . . . . .	335
9.15	Ceramic and Metal Injection Molding Machines . . . . .	337
9.15.1	Powder Injection Molding (PIM) . . . . .	337
9.15.2	Thixomolding (Magnesium Injection Molding: THIM) . . . . .	338
<b>10</b>	<b>Machine Sizes and Performance Data . . . . .</b>	<b>341</b>
10.1	Machine Sizes . . . . .	341
10.2	Performance Data . . . . .	344
10.2.1	Performance Data of the Injection Unit . . . . .	345
10.2.2	Performance Data of the Clamping Unit . . . . .	352
10.2.3	General Performance Data . . . . .	358
<b>11</b>	<b>Accessories . . . . .</b>	<b>361</b>
11.1	Injection Molds . . . . .	361
11.2	Auxiliary Equipment for Automation . . . . .	367
11.3	Heat Exchanger . . . . .	368
<b>Index</b>	<b>. . . . .</b>	<b>375</b>
